Renting A CAR

To rent a car, you must have the following:
• A valid driver’s license or passport
• A credit card (debit card is not accepted)

Keep in mind the following when renting a car:
• Your age and gender; it can be more expensive to rent if you are under 25 years of age and male
• Size, type, and model of the car
• Ask about rental policies, such as limited mileage, and what the extra charge per mile may be for miles exceeding the limit
• Inquire about obtaining unlimited miles (this is the best policy for long trips)
• Check whether car insurance is included with the rental price or if it must be purchased separately from that rental company; if you use certain types of credit cards, the credit card company may automatically provide insurance
• Check for different rate options, such as daily, weekly, or monthly
• Vehicles are expected to be returned at the same place they were rented, in the same condition in which they were rented, including refilling the gas tank to the level it was at upon rental
• Dropping the car at a different location than where it was rented can involve extra charges
