Wherever you want to go we’ll help you get there

Today's job market is highly competitive, and Goizueta's outstanding career resources are an important part of your Evening MBA program experience. Our dedicated staff understands the specific needs of our Evening MBA students and is here to help in every way possible. Whether you're seeking to change careers, advance within your field, or advance within your company, the Career Management Center (CMC) offers the support, guidance, tools, and resources you need to succeed.

CMC Services and Events

Career Development Seminars
These seminars are designed not only to enhance your job seeking skills and chances for success now, but also to provide you with life-long career strategies you will utilize long after you leave Goizueta. Topics include job search strategies, networking tips, and behavioral interviewing techniques designed to help improve your marketability.

Coaching
We develop career coaching relationships with our students to help them identify the best opportunities to match their talents with their career objectives. One-on-one coaching sessions are available to prepare, guide and show you skills to manage your career every step of the way. CMC professionals, alumni, and other career coaches review your resume, discuss strategies for meeting your career goals, and conduct mock interviews.

MBA Career Conference and Networking Reception
The MBA Career Conference and Networking Reception takes place the first Friday in October. The afternoon program consists of a series of panels designed to help students learn more about industry roles and functions early in their business school experience. Professionals in marketing, consulting, finance, real estate and other specialized areas are brought to campus to facilitate the learning process. The day of panel discussions culminates with a reception in the Goizueta Business School Courtyard where students have the opportunity to network with alumni and corporate associates.

6-Degrees Conference
Over the past few years, the 6-Degrees Conference has been a huge success. Incorporated into our university email system, it allows students, alumni, faculty, and staff to share objectives and contacts, to help MBA students find jobs. This program has proven to be a very simple, yet powerful tool that taps into the Goizueta community and professional networks.

National Black MBA Conference
National Society of Hispanic MBA Conference
These two conferences offer students the opportunity to network with corporate representatives interested in meeting a diverse group of MBA candidates. Both conferences include a career fair during which over 200 companies target under-represented minorities in business, but they are open to all MBA students. The CMC staff participates in these conferences to provide support for students attending, as well as to interact with employers and expand our corporate outreach.
CAREER LEADER ASSESSMENT TOOL

Many MBA students do not have a clear idea of career direction when they arrive on campus. Understanding your own personality, motivations, values and skills is essential for exploring your career path. The CMC provides you with Career Leader, an online business career self-assessment tool that will help you discover your best business career path.

Student Clubs
Student clubs offer students the opportunity to explore specific industries of functional areas. Most clubs work in partnership with the CMC to bring industry professionals and alumni to campus for activities such as career panels and focus groups. The CMC provides continuity and maintains key relationships from year to year so that corporate and alumni contacts are available for each incoming class. Students are encouraged to join one or more of the student clubs related to their career interests.

Mock Interview Blitz
For those students actively seeking to change jobs, this event, coordinated by the CMC, brings Goizueta alumni to campus to conduct mock interviews. Each student receives a written critique from the mock interviewer to identify areas for improvement.

Executives-in-Residence
The CMC has a number of executives who volunteer their time and expertise as advisors to our students through individual half-day sessions on campus. The individual coaching sessions provide students with valuable insights from industry insiders on topics of interest such as career paths, the hiring process, and industry specific knowledge.

ON-CAMPUS RECRUITING

Recruiting
From faculty, staff, and students to alumni, community leaders, and international partners, everyone at Goizueta helps facilitate the recruiting process. We are constantly striving to strengthen relationships and cultivate new partnerships. As an Evening MBA graduate, you will benefit from our extensive network throughout your career.

Corporate Presentations
Prior to interview dates, many companies make presentations that give students the chance to learn more about their corporate culture, employment opportunities and position requirements, while meeting and interacting with alumni, recruiters, and hiring managers from that firm.

Information Sessions
Many companies elect to invite students selected for interviews to information sessions the night before their scheduled interviews. These meetings allow the recruiters to share general company information and the meeting give them the opportunity to get to know the students in a more relaxed environment.
On-campus recruiting is an important component of your job search, and the CMC is committed to providing an array of job opportunities for all of our students. When you are within 12 months of graduation, you may submit your resume for on-campus interviews with the world's leading companies. Job search assistance is provided for downsized students at any point in the program.

The on-campus recruiting process for MBAs is managed in eRecruiting from beginning to end. Positions are posted for students to review prior to uploading their resumes for a particular company. Students' resumes are then e-mailed to the company in a single PDF file for review. Each company selects students to interview and students are able to select an interview slot online.

Some companies choose not to come to campus to interview but wish to review resumes of interested students. In that case, a resume drop is set up, resumes are forwarded to the company and the company communicates directly with students.

Resume Books
Our MBA Resume Books offer an efficient way of matching students' backgrounds with a company's hiring needs. Upon request, the CMC will compile class resume books or customized resume books to meet specific recruiting objectives. Additionally, our web site provides recruiters with links to resume books compiled by functional areas of interest.

**CONTACT DATABASES**

**LeadShare Database**
This database was created by and is maintained by the CMC. It makes available to students the names of more than 2,500 recruiting and networking contacts that the CMC has developed and nurtured over the past few years.

**Alumni Database**
This database is maintained by the Alumni Office and contains contact information for alumni who have provided their information for use by current students and alumni.

**Goizueta Business Library**
Over two dozen online subscriptions are available to current students, including Bloomberg, Dun & Bradstreet Million Dollar Database, Factiva, Hoover's Online and Lexis-Nexis. The library website includes online job specific research tools to assist you with industry research as you focus your career search and conduct company research to enhance your preparation for interviews.

Our Business Librarians conduct small group workshops that explore online resources and focus on specific locations, industries, functions and companies. One-on-one sessions with the Business Librarians provide guidance as you develop your online research skills and discuss your specific career goals and interests.
